COMPANY PROFILE

WHO WE ARE!

We are Consultants & Trainers specializing in the development of:

- Quality Management Systems (QMS)
- Environmental Systems (EMS)
- Logistic Supply Chain Systems
- Electronic Data Security Systems

Our Resources:

We have a team that includes:

- Trainers
- Facilitators
- Consultants
- Auditors
- Technical Writers
- Project Managers

We have the Experience!

- We know what's required and what works. We have been consulting in ISO Standards since 1991.
- We design Systems that are simple and easy to manage, that meet the requirements of the Standard.

We Specialize in Various Standards

- ISO 9001 - General Quality System
- ISO 13485 - Medical
- ISO 14001 – Environmental
- ISO 17025 – Laboratory
- ISO 18001 – Occupational Health & Safety
- ISO TS 16949 – Automotive
- AS 9101 – Aerospace
- ISO 22000 – Food Industry
- ISO 27001 – Information Security
- ISO 9001:2000 / IWA 2:2007 QMS for Educational Institutes

We can help you chart your way:

By:

- Determining which Standard is right for your organization
- Helping to get you started
- Determining Resource Requirements
- Ensuring On time Implementation
- Assisting in Registrar Selection

We Can help you navigate:

Through the complexity of implementation;
Assisting in the following areas:

- Gap Analysis

OUR CONSORTIUM

The dictionary defines “consortium” as “a group of companies formed to undertake an activity that would be beyond the capability of any one individual company.”

This is where we realize our greatest “synergism.” We work within a consortium to ensure that we are capable of meeting all our clients needs.

CONCLUSION

We can ensure that your organization maintains an even keel, as we navigate together through the various waypoints, culminating in a successful implementation of your selected ISO Standard!
